Didelphic double womb The didelphic womb is split in two, with each side having its own cavity. There are some small risks as with any invasive procedure which including bleeding, infection and damage to the cervix, however these are rare and would be discussed in more detail before it takes place.

WhocanIchoosetobemybirthpartnerWhatarethesignsoflabour?Javascript Does exercise cause miscarriage? Hi - Thank you for your message, I am so sorry to hear what a difficult time you have

. CenterforDiseaseControlandPrevention.Iamveryconcernedintermsofmis you need to have another examination to confirm this one way or another- you should ask for this for confirmation and clarification. Once you have been diagnosed as having an abnormally-shaped womb you will be put into the care of an obstetric team and you will have extra scans and hospital visits to check up on you and your baby throughout the pregnancy.
