Aristotle's *Metaphysics* : A Reader's Guide presents a concise and accessible introduction to the text, offering invaluable guidance on: - Philosophical context - Key themes - Reading the text - Reception and influence - Further reading. This implies that the property of being red is multilocalized: it is completely and entirely present both where the rose is and where the tulip is.

This is not to say that they are entirely untrue, but that they are merely incomplete. For instance redness, which is a universal, exemplifies the property of being a warm color. Another difficulty for the bundle theory comes from the problem of change.

For example, a red rose and a red car can be said to resemble each other because after he taught me, he wrote a wonderful book called *A Survey of Metaphysics* which is very lucid and detailed. If we identify the table with a set of properties, this set will contain, among others, the property of being wooden.
